Re: Final Remedial Investigation/Risk Assessment
for Site 5 – Transformer Storage Boneyard
Naval Station Great Lakes, Illinois

0971255048 – Lake County
Great Lakes Naval Station
Superfund/Technical

Dear Ms. Van Donsel:

The Illinois Environmental Protection Agency (Illinois EPA or Agency) is in receipt of the Navy's signature page for the *Remedial Investigation/Risk Assessment Report for Site 5 – Transformer Storage Boneyard, Naval Station Great Lakes, Great Lakes, Illinois*. It was received via electronic mail on May 16, 2013. The goal of this Remedial Investigation and Risk Assessment (RI/RA) Report was to present the results of the December 2010 and December 2012 environmental investigations of Site 5 and the subsequent human health risk assessment for the site.

Illinois EPA provided comments on the Draft RI/RA report which have since been properly addressed by the Navy. The Agency therefore concurred with the final report in a letter dated May 6, 2013. As such, Agency personnel have now signed the provided signature page and are herein returning it for inclusion in the final document.

If you have any questions regarding anything in this letter or require any additional information, please contact me at (217) 557-8155 or via electronic mail at brian.conrath@illinois.gov.

Sincerely,

Brian A. Conrath

Brian A. Conrath
